

**Safety Data Sheet**  
Hawco Products Limited  
Division Diamond Products  
HD20 Diamond Edge H.W

## 1. IDENTIFICATION OF THE SUBSTANCE OR PREPARATION AND OF THE COMPANY

**Identification of Preparation:** HD20 Diamond Edge.  
**Date of Safety Data Sheet:** February 23, 2016  
**Use of Preparation:** Machine Dish Detergent  
**Company Identification:** Hawco Products Ltd.  
61 Shaver Street, PO Box 1507  
Brantford, Ontario N3T 5V6

**Company Emergency Telephone Number** 519 759-2443

## 2. HAZARD IDENTIFICATION

**Emergency Overview:**

**OSHA / WHMIS 2015 Hazards**

Corrosive to Metals and Eyes.

**Classification of substance or mixture**

**GHS-US/Canadian classification:**

**GHS Hazards**

Skin Corrosive 1A H314

Eye Damage 1 H318

**Label Elements**

**GHS-US/ Canada Labeling**

**Hazard Pictograms (GHS):**

**Signal Word (GHS):** Danger!

**Hazard Statements (GHS):**

H290 – May be corrosive to metals.

H302 - Harmful if swallowed

H314-Causes severe skin burns and eye damage

H351-Suspected of causing cancer

**Precautionary Statements (GHS-US):**

P102: Keep out of reach of children.

P260: Do not breathe mist, spray, and vapours.

P280: Wear face protection, protective clothing, protective gloves, and eye protection.

P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P303+P361+P353: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention.

Date: February 23, 2016

SDS: Hawco Products *Diamond HD20 Edge H.W*

**Safety Data Sheet**  
Hawco Products Limited  
Division Diamond Products  
HD20 Diamond Edge H.W

P315: Get immediate medical advice/attention.

P501: Dispose of contents / container in accordance with local regulations.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

**Chemical Description:** Chemical Blend

| Ingredient                | CAS#        | % by Wt | Classification                                                                                                                                                               |

### 4. FIRST AID MEASURES

|                            |                                                                                                                                                                                |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation:</b>         | Remove to fresh air. If symptoms persist consult physician.                                                                                                                    |
| <b>Eye Contact:</b>        | Remove contacts. Flush with water for at least 20 minutes, occasionally lifting the upper and lower eyelids. Repeat if required. If irritation persists get medical attention. |
| <b>Skin Contact:</b>       | Thoroughly wash exposed skin with soap and water. Remove any contaminated clothing and wash before reuse.                                                                      |
| <b>Ingestion:</b>          | Wash out mouth with water. Drink plenty of water. Do not induce vomiting unless directed by medical personal. Never give anything to an unconscious person. Get medical aid.   |
| <b>Notes to Physician:</b> | Treatment based on judgment of attending physician.                                                                                                                            |

### 5. FIRE FIGHTING MEASURES

|                                        |                                                                                     |
|----------------------------------------|-------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media:</b>   | Flood with water for extinguishing agent. CO2, dry chemical, alcohol resistant foam |
| <b>Unsuitable extinguishing media:</b> | None known.                                                                         |
| <b>Special exposure hazards</b>        | Thermal decomposition releases irritating gases.                                    |
| <b>Special safety equipment:</b>       | Self-contained positive pressure breathing apparatus and protective clothing.       |
| <b>Fire and explosion</b>              | Not flammable. Not an explosive hazard.                                             |
| <b>Further information</b>             | Keep containers and surrounding cool with water spray.                              |

## 6. ACCIDENTAL RELEASE MEASURES

### **Personal Precautions, Protective Equipment and Emergency Procedures**

**General Measures:** Do not get in eyes, on skin, or on clothing. Do not breathe vapour or mist.

#### **For Non-Emergency Personnel**

**Protective Equipment:** Use appropriate personal protection equipment (PPE).

**Emergency Procedures:** Evacuate unnecessary personnel.

#### **For Emergency Personnel**

**Protective Equipment:** Equip cleanup crew with proper protection.

**Emergency Procedures:** Ventilate area.

#### **Environmental Precautions**

Prevent entry to sewers and public waters.

#### **Methods and Material for Containment and Cleaning Up**

**For Containment:** Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.

**Methods for Cleaning Up:** Clear up spills immediately with absorbent and dispose of waste safely.

#### **Reference to Other Sections**

See Heading 8. Exposure controls and personal protection.

## 7. HANDLING AND STORAGE

### **Precautions for safe handling:**

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

Avoid splashes or spray in enclosed areas.

### **Information about fire and explosion protection:**

Keep respiratory protective device available.

No special measures required.

### **Conditions for safe storage, including any incompatibilities:**

**Storage:** Acids, Oxidizers, reducing agents.

### **Requirements to be met by storerooms and receptacles:**

Store in a cool location.

Protect from humidity and water.

Unsuitable material for receptacle: steel.

Unsuitable material for receptacle: aluminium.

Avoid storage near extreme heat, ignition sources or open flame.

### **Information about storage in one common storage facility:**

Do not store together with alkaline products or strong acids.

Store away from oxidizing agents.

Store away from foodstuffs.

### **Further information about storage conditions:**

Store in cool, dry conditions in well sealed receptacles.

Store receptacle in a well ventilated area.

Keep container tightly sealed.

**Specific end use(s)** No further relevant information available.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

|                                |                                                                                                     |
|--------------------------------|-----------------------------------------------------------------------------------------------------|
| <b>Respiratory protection:</b> | Use local exhaust or dilution ventilation.                                                          |
| <b>Hand protection:</b>        | Chemical resistant gloves.                                                                          |
| <b>Eye protection:</b>         | Safety goggles or full face shield.                                                                 |
| <b>Skin protection:</b>        | Use body-covering impervious clothing.                                                              |
| <b>Working hygiene:</b>        | Take usual precautions when handling. Workers should wash hands before eating, drinking or smoking. |

Trisodium Nitrotriacetate AWEG TWA 1mg/m<sup>3</sup> total dust 8 hour ACGIH Ceiling 2 mg/m<sup>3</sup> dust 15 minute STEL

## 10. STABILITY AND REACTIVITY

|                                                   |                                                                                                                                                                                                                              |
|---------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Reactivity</b>                                 | The substance decomposes on heating, on contact with acids and under influence of light producing toxic and corrosive gases including. The substance is a strong oxidant and reacts with combustible and reducing materials. |
| <b>Chemical stability</b>                         | Stable under recommended handling and storage conditions (see section 7).                                                                                                                                                    |
| <b>Thermal decomposition/conditions to avoid:</b> | No decomposition if used and stored according to specifications.                                                                                                                                                             |
| <b>Possibility of hazardous reactions</b>         | Hazardous polymerization will not occur.                                                                                                                                                                                     |
| <b>Conditions to avoid</b>                        | Direct sunlight. Extremely high or low temperatures. Contact with metallic substances.                                                                                                                                       |
| <b>Hazardous decomposition products</b>           | Carbon oxides (CO, CO <sub>2</sub> ). Sodium oxides.                                                                                                                                                                         |
| <b>Materials to avoid</b>                         | Metals such as aluminum. Reducing agents. Strong acids.                                                                                                                                                                      |
| <b>Hazardous polymerization</b>                   | Will not occur                                                                                                                                                                                                               |

## 11. TOXICOLOGICAL INFORMATION

**Information on toxicological effects**

**Acute toxicity:** Harmful if swallowed.

**LD/LC50 values relevant for classification:**

**Trisodium Nitrotriacetate CAS# 5064-31-3:**

LD50 (Oral, rat): 1,300 mg/kg

**Sodium Hydroxide CAS# 1310-73-2:**

LD50 (Oral, rat): 500 mg/kg

**On the skin:** Causes severe skin irritation and eye damage. (PH: 13.5).

**On the eye:** Causes serious eye damage. (PH: 13.5)

**Respiratory or Skin Sensitization:** Not classified.

**Additional toxicological information:**

**Carcinogenicity:**

**Chemical Name** Trisodium Nitrotriacetate

**IARC 2B**

**NTP** Reasonably anticipated to be a human carcinogen.

|---------------------------------------|--------------------------------------------------------------------------|
| <b>Toxicity:</b>                      | Not classified                                                           |
| <b>Persistence and Degradability:</b> | Not available                                                            |
| <b>Bioaccumulative Potential:</b>     | Not available                                                            |
| <b>Mobility in Soil:</b>              | Not available.                                                           |
| <b>Other Adverse Effects</b>          |                                                                          |
| <b>Other Information:</b>             | All of the organic components of this product are readily biodegradable. |

## 13. DISPOSAL

**Waste Disposal Recommendations:** Dispose of waste material in accordance with all local, regional, national, and international regulations.

**Ecology – Waste Materials:** Avoid release to the environment.

## 14. TRANSPORTATION INFORMATION

**Canadian T.D.G.: Regulated Material ( quantity under 1 litre can be shipped Limited Quantity)**

Proper Shipping Name: Corrosive liquid, N.O.S.

Contains ( Sodium Hydroxide)

Hazard Class: 8

ID Number: UN 1760

Packing Group: II

**Water Transportation (IMDG): Regulated Material**

Proper Shipping Name: Corrosive liquid, N.O.S.

Contains (Sodium Hydroxide)

Hazard Class: 8

ID Number: UN 1760

Packing Group: II

**Air Transportation (IATA): Regulated Material**

Proper Shipping Name: Corrosive liquid, N.O.S.

**Safety Data Sheet**
